FORWARD

This Occasional Paper records the serial holdings of AGIA (WA Branch) member libraries. Its purpose is to record the serial holdings of member libraries which may not be held on the Australian Bibliographic Network (ABN). It therefore complies with AGIA's objective - "To initiate, aid, promote, improve and plan the exchange of information in the earth sciences and related areas."

The serials holdings information is correct at time of going to press. However, users of the Union List should contact the individual Library for holdings details and availability.

Special thanks go to Irene Nutt and Bobbie Bruce for editing the Union List and to all participating members who assisted in its compilation.

Any details requiring correction/amendment should be directed to:
